

PRECISION QUINCY

Pre-Engineered Enclosure Packages

Standby Power Packages

Precision Quincy Industries specializes in pre-engineered UL FTPP Classified, sound attenuated enclosure models. Designed to reduce the source noise(s) by 30 dB(A) @ 23' (in a free-field environment); constructed from 5052 aluminum or 14 gauge galvalume roll-formed and welded frame.

Performance proven VHB adhesive bonds the aluminum or galvalume skin to the frame to offer a smooth exterior finish, free of rivets, bolts or other hardware. Our enclosures are rated for 120 MPH wind load, 50 lbs./square inch roof load and 200 lbs./square inch floor load. Each model can be incorporated with a 24 hour or 48 hour run time, UL142 sub base diesel fuel supply tank.

Pre-Engineered Enclosure Specifications

- Sound reduction of 30 dB(A) @ 23'
- 5052 H-32 Aluminum or 14 Gauge Galvalume
- Wind Load – 120 MPH
- Roof Load – 50 pounds/ SF
- Floor load – 200 pounds/ SF

Pre-Engineered Enclosure Sizes

Model	Length	Width	Height
PQ 500 - 650kW	252"	96"	120"
PQ 700 - 900kW	276"	114"	126"
PQ 1000 - 1500kW	324"	114"	150"

Pre-Engineered Enclosure Packages

Pre-Engineered Electrical Options

Package A - Junction Box

- 12" x 10" x 6" panel and terminal box

Package B – 1Ø or 3Ø Main C/B Options

- 240/120V, 1Ø, 100A main circuit breaker panelboard
- 240/120V, 3Ø, 100A main circuit breaker panelboard
- Incandescent vapor tight lights
- 3-way light switch
- GFCI duplex outlet

Package C – 1Ø or 3Ø Main C/B Options

Same as Package B, plus:

- 5kW space heater
- 24VDC Light (160W) clear lens
- Timer switch wind-up (0-60 Min)
- E-stop switch w/break glass.
- 12" thermostatically controlled exhaust fan
- LED wall pack security light W D2D

Sub-Base Fuel Tanks

Pre-Engineered Enclosure Sizes

Capacity	Length	Width	Height	Compatible with
24 Hour	376"	96"	16"	PQ 500 - 650kW
48 Hour	376"	96"	27"	PQ 500 - 650kW
24 Hour	422"	114"	15"	PQ 700 - 900kW
48 Hour	422"	114"	25"	PQ 700 - 900kW
24 Hour	422"	114"	23"	PQ 1000 - 1500kW
48 Hour	422"	114"	40"	PQ 1000 - 1500kW
