

PRECISION QUINCY

Railroad Cabinets

Rail/Transit

Rail industry standard with finished and insulated interiors. Built for durability and long-life in a rail environment. The single-pitch roof with integrated drip-cap and sealed seams constructed of welded 12-gauge Galvannealed steel, stainless steel or .100 aluminum. 3-Point locks with padlockable exterior handles. Ventilated openings in doors with replaceable air filters and full contact door gaskets provide a dust-proof, water-resistant compression seal to keep out contaminants. Hinges with grease fittings insure trouble-free door access. Eye bolts provided for lifting.
